

# Sharing Your Electrical Usage Data

The first step to determining your solar system size is to analyze your historical electrical usage and bill. This data is readily available through your online account with PG&E by following the instructions below.

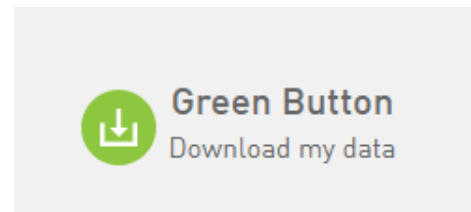

1. Go to PGE.com, and log in to your online account.

Click on Energy Usage Details.

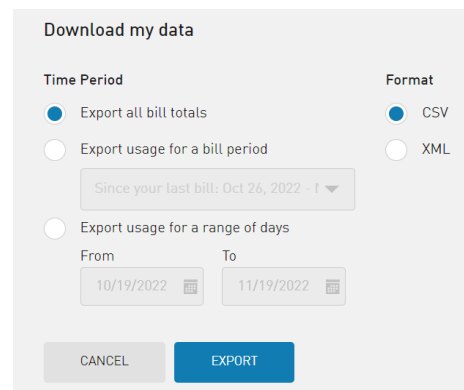

2. From My Energy Use, click on the Green Button

“Download My Data” at the bottom right of the screen.

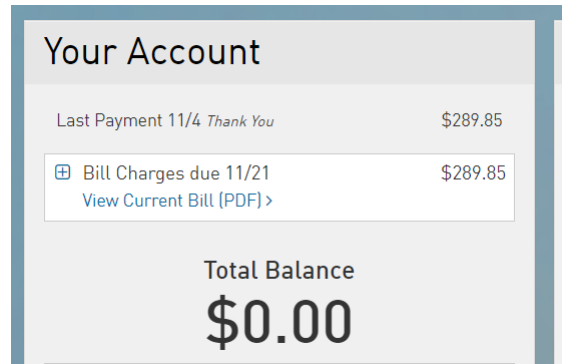

3. Click Export. Save the file to your computer.

A screenshot of a form titled 'Download my data'. It has two columns: 'Time Period' and 'Format'. Under 'Time Period', there are three radio button options: 'Export all bill totals' (selected), 'Export usage for a bill period', and 'Export usage for a range of days'. Under 'Format', there are two radio button options: 'CSV' (selected) and 'XML'. Below these options is a dropdown menu showing 'Since your last bill: Oct 26, 2022 - 1'. Under the 'Export usage for a range of days' option, there are two date input fields labeled 'From' and 'To', with dates '10/19/2022' and '11/19/2022' respectively. At the bottom of the form are two buttons: 'CANCEL' and 'EXPORT'.

# Now, please send us a copy of your bill.

4. Still on PGE.com, go back to your account dashboard,  
and click on “Your Account.”

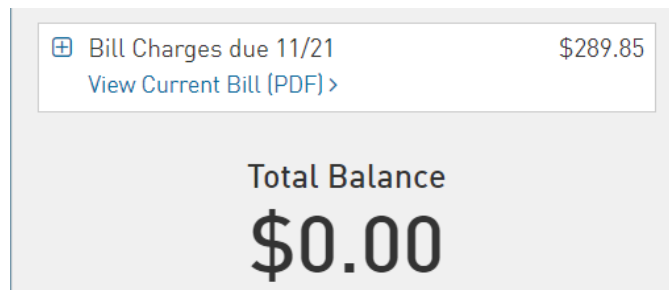

Your Account

Last Payment 11/4 <i>Thank You</i>	\$289.85
<input type="checkbox"/> Bill Charges due 11/21 <a href="#">View Current Bill (PDF) &gt;</a>	\$289.85

Total Balance  
**\$0.00**

5. Select “View Current Bill [PDF].”

Save to your computer.

<input type="checkbox"/> Bill Charges due 11/21 <a href="#">View Current Bill (PDF) &gt;</a>	\$289.85
---	----------

Total Balance  
**\$0.00**

6. Attach both files to an email to [info@solarworksca.com](mailto:info@solarworksca.com).

You are done!
